

## Our Ministries – Larry and Jean Taylor

**W**e first arrived in Belgium in 1978. We began the Bible Baptist Church (Eglise Baptiste Biblique) over 16 years ago. It is our main work. We averaged 30 for the past year, which is an increase over the previous years. We had four saved and three baptized for the year. It is located in Rixensart. We have a bookstore in the building. It is a source of contact. I usually spend one day on maintenance on the building and one to two days passing out tracts and invitations. We own our building,

pay all our bills and taxes, and support four mission works. We are praying and looking for a pastor for this work.

We have a Bible study in southern Belgium. It is in the town of Roucourt, which is about an hour from my front door. It began last September. At the present we are meeting in a home. There are about 10 who come each week. We have had five visitors come to our service. One of the visitors has begun to attend regularly. We have not seen anyone accept Christ at this study yet. I usually spend a day here passing out tracts and inviting people to the study.

We have another Bible study in the town of Barvaux. It is in the Ardenne mountains. It is also an hour from my house in the other direction of Roucourt. We meet in a home. This study came about because an exchange student from Belgium went to the States. She was saved in a Baptist church in Fairfield, Ohio. We use her home to have the study. At present her family are all that come to the study. I have not been able to get to her area and pass out tracts. The mother here was recently saved.

Our last Bible study is in the southern area of Brussels. It is in the area of Uccle. We have seen two people saved at this Bible study. It is also in a home. It began in January of this year. I spend usually one day a week passing out invitations and tracts in this area. We average in this study 10.

As you can tell we are staying busy. Between the Bible studies, the discipling program, the translation of our lessons and the minor things of life, we are busy. We manage to play softball each Saturday in the spring and summer with the neighborhood kids.

Yours for souls in Belgium,  
The Taylors
